Plenty Of Corn As Price Goes To \$2

Corn growers in the Glades are flooding the market this week with their offerings. The price has come down to \$2 per crate and a shortage of cars and trucks has made life a little more miserable for the growers.

The \$2 price would not be so bad, say some of the growers, if the entire crop could be moved.

One grower said Wednesday that he was leaving 30,000 crates of corn in the field. Corn that can not be harvested for many reasons—not enough cars or trucks and a shortage of labor.

The bumper crop this week and next is the result of hasty plantings following the freeze several weeks ago. One grower put in 1200 acres just as fast as he could get it in the ground following the freeze. He was no different from a lot of other farmers who planted many hundreds of acres at the same time.

Rardin Ave Road Dept. Bid May 28

Bids will be received in Tallahassee on Thursday, May 28 for construction of Rardin Avenue in Pahokee. The new construction will connect SR715 with SR15, according to County Commissioner Paul Rardin under whose direction the new street is being built.

The new street will take off of Bacon Point Road just north of the Pure Oil Station and run toward the Negro section to Fifth street where it will turn and run into SR15—the old Belle Glade Road. This route will keep the new street from running through the Negro school zone on Rardin Avenue, it was pointed out.

Larrimore Road Work To Start Soon

The successful contractors—Rubin Construction Company of West Palm Beach—will be given the green light by the State Road Department in Tallahassee in a few days to start construction work on Larrimore Road in Pahokee.

The bids were received several weeks ago and the Road Department will issue a work order within the next few days, according to County Commissioner Paul Rardin, under whose direction the street is being built.

The new streets will be of modern construction with curb, gutter and sidewalks.

Musical Program Scheduled Monday

Children in grades one through eight will participate in a musical program entitled "Folk Rhythm" under the direction of Mrs. Ruth Snyder, Monday, May 18 at 7:30 p. m. in the Canal Point School auditorium.

Proceeds will go toward the purchase of an air conditioner for the cafeteria. Tickets will be sold for 50c for adults, preschool children will be admitted free.

Awards Given To Music Students

At the recent piano recital held by Mrs. Guthrie Colvard, awards were given to students showing the most interest, cooperation and covering the most material successfully.

These awards were given to Julie Unwin and Mark Wetherington in the form of busts of famous composers. There were 118 guests present at the recital.

County Board Busy Routine Matters

The Palm Beach County commission voted this week to join other interests in a three year study to determine the effects on flood water levels brought about by water control structures built by the Central and South Florida Flood Control District.

The study is to be jointly financed by the FCD, the Federal Government, Palm Beach, Broward and Dade Counties and other interested parties. The survey will cost an estimated \$63,000.

The county commission approved spending \$1,300 a year for the next three years as its share of the survey cost.

In other actions this week the commission:

Voted to call for bids for doubling the size of the county stockade—a project estimated to cost \$50,000.

Voted to call for bids for construction of a new bridge over the West Palm Beach Canal on Kirk Road.

Referred to county traffic planners, the responsibility for picking a location of a new bridge over the Inland Waterway in the vicinity of Delray Beach and Boca Raton.

Heard that projects already let for bids in the \$15 million road improvement program are running some 14 percent above estimates and if the trend continues, some projects might have to be deleted.

Burns Is Pleased With Primary Race

JACKSONVILLE — Obviously pleased and grateful at polling better than 100,000 votes more in the first primary than his next opponent, Mayor Haydon Burns immediately pledged to maintain the integrity of the governor's office.

"Even if we have to run the rest of this campaign on peanuts—as we did in 1960—I assure you I will not sell out the office of governor to special interests. I am going to be governor of all the people," Burns told a committee of 340 fellow Duval Countians as he launched his second primary campaign.

"The greatest tribute of all to me was the vote in Duval County. If I didn't carry any other county I would have been grateful," Burns said. He received 65,000 votes in his home county to his next opponent's roughly 20,000. The "next opponent" was Senator Jack Matthews, a fellow Duval Countian who was soundly repudiated by his fellow citizens in Burns' favor.

Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

The Palm Beach County Commission, it appears, is faced with a giant housekeeping problem with its official family fast outgrowing its abode.

The county Bar Association's legal advisory committee asked the county commission this week to take immediate steps to build a new office building near the county jail to house all the criminal court facilities. It suggested that present criminal court facilities in the court house be turned over to Circuit Court operations.

The committee also predicted that the next legislature will get a request to allow a third criminal court judge for the county and

authority for a second county judge. If approved, the necessary office space for the additional jurists, will pose a problem for the commission unless some space realignment is carried out prior to the next legislative session.

In another area of office space, the commission decided to take another look at available space in its office building on Datura St., before taking steps to move the Industrial Information Dept. from Datura St. to the airport. Commissioner George Warren said he was against moving the department since it was necessary that it be in a downtown location because of its type of visitors.

Fellowship Hall Scene Class Meet

The May meeting for the Deo Volente Class of the First Baptist Church, was held Monday night at the fellowship hall. The meeting was opened with a devotional given by Mrs. Lee Shirley. A short business session followed, with president, Mrs. Paul Younger, presiding.

During the month of April, the three groups the class is divided into, have been competing to see which one could set the best attendance record, with the group having the lowest number attending to present the program at the next meeting.

Group two, led by Mrs. Lois White, won first place. Group three finished in second place with Mrs. Ruby Guthrie and group one led by Mrs. Louise Angel presented a skit "The Country Store". The rest of the evening was devoted to general discussion of the Christian Home and the problems faced by Christian parents today.

A message from the Treasury of a free people

How to speak out for freedom today

Free men have never gone in much for silence. Even before the first thirteen States became United States, men were speaking for freedom loud and clear.

Today Americans speak out for freedom many ways—in Congress, in local government, in neighborhood activities. Some speak out for freedom in other languages, in other lands. And millions of Americans speak out for freedom every time they buy U.S. Savings Bonds.

Every Savings Bond you buy is an investment in freedom. While you're saving money for your

own family's future, you're helping Uncle Sam tend to the business of keeping men free today.

Perhaps you don't speak out for freedom in the same tone of voice when you buy a Bond as Patrick Henry did in his famous speech. But you speak every bit as surely. And every bit as proudly.

Why not speak out for freedom now? Buy Bonds at the bank or on the Payroll Savings Plan where you work.

Keep freedom in your future with

Christian Science Group Of Canal Point

Mortality is a dream from which we need to be awakened. This is the theme of the Bible Lesson to be heard at Christian Science churches on Sunday. The subject will be "Mortals and Immortals," and the Golden Text is from Ephesians (5:14): "Awake thou that sleepest, and arise from the dead, and Christ shall give thee light." Selections from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include this: "Mortal existence is a dream; mortal existence has no real entity, but saith 'It is I.' Spirit is the Ego which never dreams, but understands all things; which never errs, and is ever conscious; which never believes, but knows; which is never born and never dies" (p. 250).

Let Your Money Earn 4½% Payable Semi-Annual

New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

The Treasury explains why the new ones you buy and the ones you own now are better than ever

Q: How does the new $3\frac{3}{4}\%$ interest rate benefit me?

A: With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to $2\frac{1}{4}\%$ for the first year and a half; then a guaranteed 4% each year to maturity.

Q: When did the new rate become effective?

A: June 1, 1959.

Q: Does the new rate change the Bonds I bought before June 1, 1959?

A: All older E and H Bonds pay more now—an extra $\frac{1}{4}\%$ from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

Q: Will the Bonds I own automatically earn their new rate?

A: Yes. You don't need to do a thing—just hold on to your Bonds.

Q: When my E Bonds mature, will they keep on earning interest?

A: Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

Q: With the new interest rate, should I cash in my old Bonds and buy new ones?

A: No. The automatic $1\frac{1}{4}\%$ increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

Q: How are series H Bonds different from series E Bonds?

A: The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

Q: In what denominations can I buy series E and series H Bonds?

A: E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.

Q: How safe are U.S. Savings Bonds?

A: Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

Q: What if my Bonds should be lost, stolen or destroyed?

A: You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

Q: Where can I buy Bonds?

A: Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount you want automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

Q: How do I help strengthen America's peace power when I buy U.S. Savings Bonds?

A: Peace costs money—money for military strength and equipment. And money saved by individuals helps keep our economy sound.

Burns Is Pleased—

Mayor Robert King High, of Miami, received 17,000 Duval County votes, virtually all of which were from precincts in exclusive Negro districts.

"I do not take this second primary lightly," Burns also said. "Don't think for a minute Mr. High is without money. Remember that he sought and gained the NAACP endorsement."

Burns also asked help from the supporters of candidates who failed to make the runoff. "I earnestly ask that they join our team for good government for all of Florida," Burns said, "I am not going to change my campaign one bit nor alter my platform one iota in the second primary."

County Board Busy—

(continued from page 1)

Instructed its voting machine department not to open any voting machines unless given a court order to do so. The order came about after it was learned the county canvassing board ordered several voting machines checked, apparently without proper authority.

The Palm Beach County Commission decided this week it must have more information before accepting any part of Peanut Island for recreational purposes.

The Port of Palm Beach Commission offered a piece of the island to the county, but the use agreement to so involved the county decided to have a closer look at the pact.

County Attorney Harry, Johnston told the board this week the proposed use agreement should include:

A map of the area to be leased. Description of easements held by the U. S. Engineers.

Copy of the contract for dredging—part of a proposed channel widening and deepening project.

A map of the exact spoil area to be used for improvement of the Inland Waterway.

A provision that both the port and the county should have a word in the placing and removal of spoil from Peanut Island.

A copy of the II Board deed which transferred title of Peanut Island to the Port District.

A provision giving the county the right to terminate the lease and remove any improvements.

The cost of liability insurance for dredging contractors, which the Port said the county must furnish.

Said one county commissioner "It would be interesting to know what they (port) are offering us."
